

What changed the museum visit?

Fictional worked example / Use your own task and evidence

Support every arrow with a detail from the passage.

Original practice text

1. A class planned to enter the museum through the garden gate at 10:00.
2. Overnight rain flooded the garden path, so museum staff closed that entrance.
3. The teacher led the class to the main entrance, where another group was waiting.
4. Because the two groups needed to pass through the same check-in desk, the class began its tour ten minutes later than planned.
5. To finish before the bus departure, the guide shortened the last gallery stop.

Worked model

Cause	Rain flooded the garden path.
Effect	Staff closed the garden entrance.
Evidence	Sentence 2 connects the flood and closure.
Uncertain	The passage says nothing about a late bus driver.

Because statement: Staff closed the entrance because the path leading to it was flooded.

Follow the chain

Entrance closed -> Teacher uses main entrance (Sentences 2-3)

Both groups need one check-in desk -> Tour starts ten minutes late (Sentence 4)

Less time before bus departure -> Final gallery stop is shortened (Sentence 5)

One event several effects

The school moved the concert indoors. Staff carried the chairs into the hall, and the student announcer replaced the outdoor directions on the welcome sign.

Chairs moved into the hall.; Directions on the sign were changed.

Everyone stayed dry is a possible prediction, not a stated outcome.

Sequence can help locate a link, but it does not establish causation. Keep inferred connections separate from details the passage states.
